MODELS

S - Excellent entry option for a lower budget. Great for schools, where there is no need for extreme challenges. Fits almost anywhere.

M - Increased width that allows more side movement. User can change the angle from $+20^{\circ}$ to -25° . The design features LED lights.

L - Higher and wider than the previous model. Has RGB LED lights with remote. This luxury machine is designed to satisfy the needs of every climber, beginner or a pro.

XL - The biggest and newest model. 3,60 meters tall! This monster machine can accommodate 2 or even 3 climbers at the same time for more competitive fun. Inclination is -45° . When you climb on it, you forget that you are on a machine.

Custom - Client can choose size, color, lights and request branding. We can put your company logo or image on the wall for maximum visual impact.

Ladder Station is a product of Climbmatic Ltd.
